

Review Data

> PWS Home / Review Data

i To sort data, use the individual headers by clicking on them (e.g., Facility, Lab, Sample ID, etc.) or filter for data using the Filter search box. To filter, enter a specific identifier (e.g., sample point ID, Facility ID) in the Filter search box or enter a partial identifier. (e.g., Searching "ABC" will return all sample results that contain ABC in any field.) The Filter search box will filter data in all fields on the page.

To download or print the data, use the icons next to the Filter search box.

Click on the **analyte name** in blue text to view Quality Control (QC) data.

If your laboratory has entered comments, you will be able to click on the **sample ID** in blue text to view comments.
